Before you collaborate

A little bit of preparation goes a long way! With this session, it's not about jumping in to get going.

10 minutes

- Team gathering**
Before you should participate in the session and create an idea. Brainstorm: information on previous ideas.
- Set the goal**
What is the goal of your session? Be clear on what you're trying to achieve.
- Learn how to use the facilitation tools**
Learn how to use the facilitation tools. You can find the facilitation tools in the top right corner of the screen.

Define your problem statement

What problem are you trying to solve? Frame your problem as a how might we statement. This will be the focus of your brainstorm.

5 minutes

How might we (your problem statement)?

How might we (your problem statement)?

Key rules of brainstorming
For a successful brainstorming session:

- Stay focused
- Encourage wild ideas
- Defer judgement
- Listen to others
- Go on volume
- It's possible, be crazy

Brainstorm

Write down any ideas that come to mind. That's all you need to get started.

10 minutes

Arun anand

Avoid unwanted fertilizer

It allows farmers buy fertilizers to buy application itself

Easy identify the disease

Avoid unwanted chemical

karthick raja

farmers can cultivate crop without hurdle

farmers may avoid soil pollution

It detects disease and suggest better solution
